

PEGASYS is a multidisciplinary strategy and management consulting firm. Founded in 2000, **PEGASYS** is a trusted advisor and partner to the public and private sectors globally. We work with governments, international financial institutions, private clients and investors to design, finance, implement or establish the strategies, institutions and structures needed to deliver and manage infrastructure and services, while safe-guarding natural resources. We operate in seven sectors, namely cities, climate, energy, resilience, transport, waste, and water. Together with our clients and partners, we are improving quality of life, access to economic opportunities and building resilience through innovative yet workable solutions.

We are looking to recruit a **Consultant** into the Cape Town office. This individual will need to support delivery of our **transport portfolio** of work, with an emphasis on structuring and carrying out quantitative and data analysis in support of broader project objectives, as well as communication of this work.

In line with the company's employment equity plan, this role is an **employment equity position** and open to such applications.

Consultant: Transport

- Full-time position
- Location – Cape Town

DUTIES AND RESPONSIBILITIES

- Drafting reports and other forms of documentation for clients and partners
- Preparing presentations to capture key findings, project outcomes, and / or project approach
- Supporting the broader practice as a resource by conducting research, analysis, report writing, or other assistance on projects not related to specialist area if the need arises
- Assisting with project co-ordination, project logistics and administration
- Participating in and contributing to client-meetings
- Assisting with, contributing to, and taking ownership of project deliverables or components of deliverables
- Sound analysis and structuring of a deliverable
- Contribute to proposal development
- Data Analysis
- Developing pivot tables and dashboards.

- Preparing / reporting on data modeling and statistical modeling.
-

QUALIFICATIONS AND EXPERIENCE

Required

- A graduate qualification (NQF 7 or higher), preference for an analytical field (PPE, economics, law, urban studies or similar.)
- At least 3 years' experience in data and financial analysis.
- Must have a track-record of academic excellence.
- Good exposure to research, analysis, synthesis and problem-solving.
- Must demonstrate strong numeracy capabilities.
- Proficient in MS Excel (Advanced)
- Must be able to think logically and independently.
- Must demonstrate or have a track record of leadership or entrepreneurial aptitude.
- Must have interdisciplinary interests and skills.
- Understanding of, or previous exposure to business planning, financial analysis and / or financial modelling is an added advantage.

Preferred

- Fluency in English.
 - Multiple South African languages.
-

KEY SKILLS AND ATTRIBUTES

This role calls for several specific skills and characteristics, including:

- Strong work ethic, self-motivated and demonstrable high standards of achievement.
 - Strong interpersonal skills and ability to work in diverse teams as well as independently.
 - An energetic problem-solver, who is open-minded with multi-perspective views;
 - Interest in working towards a desired outcome on complex and ambiguous client problems.
 - Ability to research and translate findings into products.
 - Good time management, with the ability to meet task deadlines within timeframe and budget.
 - Excellent oral and written communication skills.
 - Demonstrable ability to clearly break down and explain a complex topic verbally and in writing.
 - Ability to listen and respond to input and diverse perspectives; and
 - Ability to adapt and work in a highly pressurized environment.
-

SALARY

- Commensurate with experience and qualifications

Closing date: 24th March 2023
